Adchem is a leading manufacturer of high performance adhesive tape systems for under-hood, in-cabin, and under-carriage automotive applications.

Combining adhesive engineering expertise, substrate and liner materials knowledge, and exceptional process capability, Adchem offers products for a multitude of automotive substrates and applications including low surface energy materials, foam, low VOC, chemical resistance, and more.

Adchem conducts extensive foam bonding studies and many of our products meet OEM specifications from Ford, Fiat Chrysler, GM, and more.

ADCHEM AUTOMOTIVE SPECIFICATION LIST

For detailed information on the substrates tested or for copies of Adchem's current test reports, please visit adchem.com or contact your area sales representative to learn more.
